Informatics student at Ahmad Dahlan University with hands-on experience in Backend Web Development through three internships and multiple freelance projects. Experienced in designing and developing RESTful APIs, database-driven systems, and business applications using Laravel, FilamentPHP, MySQL, and Python. Skilled in backend architecture, API integration, database design, authentication, and server-side application development. Passionate about building scalable, maintainable, and efficient software solutions.

## Work Experiences

### SD Muhammadiyah Bausasran - Yogyakarta, Indonesia

April 2025 – July 2025

Fullstack Developer Intern

Tech Stack: Laravel, FilamentPHP, MySQL

- Developed and maintained backend functionality for a School Information System using Laravel and MySQL.
- Designed relational database schemas supporting content management and student admission workflows.
- Built administrative modules and business logic for content and enrollment management.
- Implemented data validation and backend processes to support digital admission operations..

### Horus Technology - Yogyakarta, Indonesia

October 2025 – Januari 2026

Fullstack Developer Intern

Tech Stack:Vue, Python, REST API, Server-Sent Events (SSE).

- Integrated frontend applications with Python-based REST APIs for business software solutions.
- Implemented Server-Sent Events (SSE) to support real-time communication features.
- Collaborated with backend teams to design and consume scalable API services.
- Participated in system integration and backend-related feature development..

### PT Razen Teknologi Indonesia - Yogyakarta, Indonesia

February 2026 – April 2026

Fullstack Developer Intern

Tech Stack: React, Inertia, Laravel, MySQL

- Developed backend modules for a Workforce Distribution and Job Readiness Information System using Laravel and MySQL.
- Implemented role-based access control supporting four distinct user roles.
- Built business logic for workforce assessment, job readiness evaluation, and candidate management.
- Designed and optimized database operations supporting workforce monitoring and reporting features.
- Collaborated with frontend developers to deliver integrated full-stack solutions..

## Education Level

### Universitas Ahmad Dahlan (UAD) - Yogyakarta, Indonesia

Aug 2022 - Present

Bachelor of Informatics Engineering, 3.56/4.00

- Coursework emphasis on Software Engineering, Database Systems, Web Programming, and Data Structures & Algorithms.
- Maintained a focus on full-stack development throughout coursework, applying Laravel, React, and Vue across academic and competition projects.

### SMK Negeri 1 Lamongan- Lamongan, Indonesia

July 2019 - May 2022

Multimedia Major

- Built a foundation in visual communication and digital content creation — graphic design, video editing, and photography — that now supports UI/UX-focused frontend work.

## Organizational & Committee Experiences

### Himpunan Mahasiswa Informatika (HMIF) - Yogyakarta, Indonesia

Jan 2023 - Des 2023

Staff of Strategic and Aspirational Studies Division (AKASTRAT)

- Served as a liaison between students and faculty, collecting and conveying student aspirations on academic and campus-related issues.
- Facilitated communication channels that ensured student concerns were consistently heard and acted upon by the department.

### BEM Faculty of Industrial Technology (BEM FTI) -Yogyakarta, Indonesia

Jan 2024 – Des 2024

Head of the Cadre Development Department

- Led department planning by creating program matrices and organizing leadership development agendas for the year.
- Supervised department members and coordinated delegation, ensuring all programs executed in alignment with organizational goals.

### FTI Anniversary (Milad FTI) 2024 – UAD -Yogyakarta, Indonesia

Des 2024 – Des 2024

Chief Executive (Chairperson)

- Led the organizing committee in designing and executing the faculty's anniversary celebration series, coordinating across multiple divisions and the full event timeline.
- Drove faculty identity and unity through a mix of internal and external events.

### Informatics Competition 2023(UAD) -Yogyakarta, Indonesia

oct 2023 – oct 2023

Chief Executive (Chairperson)

- Oversaw full event execution from planning through post-event evaluation as chairperson for the second time in one year, building on leadership experience from the Milad FTI anniversary event.
- Coordinated 3 divisions (technical, publication, logistics) to deliver an event meeting academic and competitive standards.

## Project

### Car Rental Website

Tech Stack : React, TypeScript, Laravel | Freelance Project | 2025

- Developed RESTful APIs and backend services for vehicle rental management.
- Designed relational database structures for vehicles, customers, and rental transactions.

- *Implemented business logic for booking, scheduling, and customer management workflows.*
- *Integrated backend services with React frontend applications.*

**Tri Jaya Agung Business Website**

Tech Stack : React, TypeScript, Laravel | Freelance Project | 2025

- *Built backend content management functionality using Laravel and MySQL.*
- *Developed product catalog management features supporting dynamic content updates.*
- *Implemented administrator workflows for managing business information and products.*
- *Designed database structures to support scalable content management.*

**Training And Seminars**

|                            |      |
|----------------------------|------|
| • Leadership Education     | 2023 |
| • Design Thinking Webinar  | 2023 |
| • Google Developer Seminar | 2024 |

**Awards, Skills, and Certifications**

- **Award (2023)** : Best Team – FI-CHALLENGE Fipex 2024
- **Soft Skills** : Analytical Thinking, Problem Solving, Team Collaboration, Communication, Time Management
- **Backend Technologies**: Laravel, FilamentPHP, Python, REST API Development, API Integration
- **Database**: MySQL,Postgresql,MongoDB, Database Design, Database Management, Relational Database Modeling
- **Tools**: Git, GitHub, Postman, phpMyAdmin,Docker, Visual Studio Code
