Informatics student at Ahmad Dahlan University with experience in Frontend Web Development through three internships and various freelance projects. Experienced in building responsive and user-friendly web interfaces using React, TypeScript, Vue.js, JavaScript, and Tailwind CSS. Skilled in translating UI/UX designs into functional applications, integrating REST APIs, and creating engaging user experiences across desktop and mobile platforms. Passionate about developing modern, accessible, and high-performance web applications.

Work Experiences

SD Muhammadiyah Bausasran - Yogyakarta, Indonesia Fullstack Developer Intern Tech Stack: Laravel, FilamentPHP, MySQL - Developed responsive user interfaces for a School Information System using Laravel Blade and FilamentPHP. - Designed and implemented content management interfaces enabling school staff to manage website content efficiently. - Built intuitive enrollment forms and user workflows for online student admissions (PPDB). - Collaborated with stakeholders to translate requirements into user-friendly web experiences.	April 2025 – July 2025
Horus Technology - Yogyakarta, Indonesia Fullstack Developer Intern Tech Stack: Vue, Python, REST API, Server-Sent Events (SSE). - Developed responsive Vue.js interfaces for business software products and internal platforms. - Translated UI/UX designs into reusable and maintainable frontend components. - Integrated REST APIs and Server-Sent Events (SSE) to support real-time user interactions. - Redesigned the Horus corporate website and TING landing page to improve usability and visual consistency. - Collaborated closely with designers, backend engineers, and stakeholders throughout the development lifecycle.	October 2025 – Januari 2026
PT Razen Teknologi Indonesia - Yogyakarta, Indonesia Fullstack Developer Intern Tech Stack: React, Inertia, Laravel, MySQL - Developed responsive React interfaces for workforce distribution and job readiness platforms. - Built interactive dashboards and data visualization components to improve workforce monitoring. - Implemented role-based user interfaces across multiple user types and workflows. - Integrated frontend applications with Laravel APIs to ensure seamless data exchange. - Collaborated with backend developers to deliver scalable and user-centered web applications.	February 2026 – April 2026

Education Level

Universitas Ahmad Dahlan (UAD) - Yogyakarta, Indonesia Bachelor of Informatics Engineering, 3.56/4.00 - Coursework emphasis on Software Engineering, Database Systems, Web Programming, and Data Structures & Algorithms. - Maintained a focus on full-stack development throughout coursework, applying Laravel, React, and Vue across academic and competition projects.	Aug 2022 - Present
SMK Negeri 1 Lamongan- Lamongan, Indonesia Multimedia Major Built a foundation in visual communication and digital content creation — graphic design, video editing, and photography — that now supports UI/UX-focused frontend work.	July 2019 - May 2022

Organizational & Committee Experiences

Himpunan Mahasiswa Informatika (HMI) - Yogyakarta, Indonesia Staff of Strategic and Aspirational Studies Division (AKASTRAT) - Served as a liaison between students and faculty, collecting and conveying student aspirations on academic and campus-related issues. - Facilitated communication channels that ensured student concerns were consistently heard and acted upon by the department.	Jan 2023 - Des 2023
BEM Faculty of Industrial Technology (BEM FTI) -Yogyakarta, Indonesia Head of the Cadre Development Department - Led department planning by creating program matrices and organizing leadership development agendas for the year. - Supervised department members and coordinated delegation, ensuring all programs executed in alignment with organizational goals.	Jan 2024 – Des 2024
FTI Anniversary (Milad FTI) 2024 – UAD -Yogyakarta, Indonesia Chief Executive (Chairperson) - Led the organizing committee in designing and executing the faculty's anniversary celebration series, coordinating across multiple divisions and the full event timeline. - Drove faculty identity and unity through a mix of internal and external events.	Des 2024 – Des 2024
Informatics Competition 2023(UAD) -Yogyakarta, Indonesia Chief Executive (Chairperson) - Oversaw full event execution from planning through post-event evaluation as chairperson for the second time in one year, building on leadership experience from the Milad FTI anniversary event. - Coordinated 3 divisions (technical, publication, logistics) to deliver an event meeting academic and competitive standards.	oct 2023 – oct 2023

Project

Tourism Destination Website Tech Stack HTML, Tailwind CSS, Alpine.js, AOS Competition Project 2024
--

- *Designed and developed a responsive tourism website showcasing cultural and natural attractions in Yogyakarta.*
- *Built modern and visually engaging user interfaces using Tailwind CSS and Alpine.js.*
- *Implemented scroll-based animations and interactive elements to enhance user engagement.*
- *Optimized layouts and responsiveness across desktop, tablet, and mobile devices. Designed responsive user interfaces optimized for desktop and mobile devices.*

Student Organization Database System

Tech Stack : HTML, Tailwind CSS, JavaScript | Organizational Project | 2024

- *Developed a web-based information platform for displaying student organization data and activities.*
- *Built dynamic content rendering using JavaScript and JSON-based data structures.*
- *Designed responsive layouts and navigation systems to improve information accessibility.*
- *Focused on usability and maintainable frontend architecture.*

Car Rental Website

Tech Stack : React, TypeScript, Laravel | Freelance Project | 2025

- *Developed responsive React interfaces for vehicle browsing, booking, and rental management workflows.*
- *Built reusable UI components and interactive user experiences using TypeScript.*
- *Integrated frontend applications with backend APIs to support real-time rental data management.*
- *Optimized user flows across desktop and mobile platforms.*

Tri Jaya Agung Business Website

Tech Stack : React, TypeScript, Laravel | Freelance Project | 2025

- *Designed and developed a modern business profile website with a responsive product catalog interface.*
- *Built user-friendly product browsing experiences and content presentation pages.*
- *Integrated dynamic content management features through API-driven frontend architecture.*
- *Improved usability and accessibility across multiple screen sizes.*

Training And Seminars

• Leadership Education	2023
• Design Thinking Webinar	2023
• Google Developer Seminar	2024

Awards, Skills, and Certifications

- **Award (2023)** : Best Team – FI-CHALLENGE Fipex 2024
- **Soft Skills** : Analytical Thinking, Problem Solving, Team Collaboration, Communication, Time Management
- **Frontend Technologies**: React.js, TypeScript, Vue.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- **Frontend Skills**: Responsive Web Design, Component-Based Development, API Integration, Cross-Browser Compatibility, UI Implementation
- **Tools**: Git, GitHub, Visual Studio Code, Figma, Postman
- **Additional Knowledge** : REST API, Server-Sent Events (SSE), Basic Laravel, Basic MySQL
