Informatics student at Ahmad Dahlan University with experience in Fullstack Web Development through three internships and various freelance projects. Experienced in developing School Information Systems, Workforce Distribution Systems, Business Profile Websites, and Rental Management Systems using React, TypeScript, Laravel, FilamentPHP, and MySQL. Skilled in frontend development, backend API integration, database management, and responsive web design. Passionate about building scalable and user-friendly web applications.

Work Experiences

SD Muhammadiyah Bausasran - Yogyakarta, Indonesia Fullstack Developer Intern Tech Stack: Laravel, FilamentPHP, MySQL - Independently delivered a full-stack School Information System from database design to deployment comprising a company profile site, CMS, and online student admission (PPDB) platform, using Laravel, FilamentPHP, and MySQL. - Designed and built an admin dashboard consolidating 7 content modules (news, gallery, achievements, facilities, teachers, testimonials, school info) into a single, non-technical-friendly management interface. - Implemented an online PPDB enrollment workflow, digitizing what was previously a manual admission process. - Collaborated with school stakeholders during planning and requirements gathering, then independently handled the full technical implementation.	April 2025 – July 2025
Horus Technology - Yogyakarta, Indonesia Fullstack Developer Intern Tech Stack: Vue, Python, REST API, Server-Sent Events (SSE). - Built frontend features and integrated backend APIs for TING, a business software product, using Vue and Python-based REST APIs. - Designed and redesigned two client-facing platforms the Horus corporate website and TING landing page. - Delivered frontend interfaces for a Document Management System (DMS), translating client requirements and design specs into functional Vue components. - Implemented real-time communication using Server-Sent Events (SSE) for an Agentic AI demonstration platform, owning both frontend implementation and backend API integration. - Collaborated cross-functionally with backend engineers, product teams, and stakeholders to deliver business-oriented software solutions.	October 2025 – Januari 2026
PT Razen Teknologi Indonesia - Yogyakarta, Indonesia Fullstack Developer Intern Tech Stack: React, Inertia, Laravel, MySQL - Built full-stack features (React, Inertia, Laravel) for a Workforce Distribution and Job Readiness Information System connecting schools, students, companies, and government institutions. - Implemented role-based access control across 4 distinct user types (students, schools, companies, government agencies). - Developed assessment, job readiness, and workforce evaluation modules to support candidate preparation. - Built candidate management and job-matching features based on user qualifications and competencies. - Created dashboards and data visualization features for workforce monitoring and reporting. - Collaborated with cross-functional teams to ensure seamless frontend-backend integration.	February 2026 – April 2026

Education Level

Universitas Ahmad Dahlan (UAD) - Yogyakarta, Indonesia Bachelor of Informatics Engineering, 3.56/4.00 - Coursework emphasis on Software Engineering, Database Systems, Web Programming, and Data Structures & Algorithms. - Maintained a focus on full-stack development throughout coursework, applying Laravel, React, and Vue across academic and competition projects.	Aug 2022 - Present
SMK Negeri 1 Lamongan- Lamongan, Indonesia Multimedia Major Built a foundation in visual communication and digital content creation — graphic design, video editing, and photography — that now supports UI/UX-focused frontend work.	July 2019 - May 2022

Organizational & Committee Experiences

Himpunan Mahasiswa Informatika (HMIF) - Yogyakarta, Indonesia Staff of Strategic and Aspirational Studies Division (AKASTRAT) - Served as a liaison between students and faculty, collecting and conveying student aspirations on academic and campus-related issues. - Facilitated communication channels that ensured student concerns were consistently heard and acted upon by the department.	Jan 2023 - Des 2023
BEM Faculty of Industrial Technology (BEM FTI) -Yogyakarta, Indonesia Head of the Cadre Development Department - Led department planning by creating program matrices and organizing leadership development agendas for the year. - Supervised department members and coordinated delegation, ensuring all programs executed in alignment with organizational goals.	Jan 2024 – Des 2024
FTI Anniversary (Milad FTI) 2024 – UAD -Yogyakarta, Indonesia Chief Executive (Chairperson) - Led the organizing committee in designing and executing the faculty's anniversary celebration series, coordinating across multiple divisions and the full event timeline. - Drove faculty identity and unity through a mix of internal and external events.	Des 2024 – Des 2024
Informatics Competition 2023(UAD) -Yogyakarta, Indonesia Chief Executive (Chairperson)	oct 2023 – oct 2023

- Oversaw full event execution from planning through post-event evaluation as chairperson for the second time in one year, building on leadership experience from the Milad FTI anniversary event.
- Coordinated 3 divisions (technical, publication, logistics) to deliver an event meeting academic and competitive standards.

Project

Car Rental Website

Tech Stack : React TypeScript, Laravel, FilamentPHP, phpMyAdmin| Freelance Project

- Developed a full-stack vehicle rental platform allowing customers to browse available vehicles, submit rental requests, and track booking status.
- Implemented vehicle inventory, rental scheduling, customer management, and transaction tracking modules.
- Built RESTful API integrations between React frontend and Laravel backend to ensure efficient data synchronization.
- Designed responsive user interfaces optimized for desktop and mobile devices.

Tri Jaya Agung Business Website

Tech Stack : React TypeScript, Laravel, FilamentPHP, phpMyAdmin| Project School

- Developed a business profile and product catalog website to strengthen the company's online presence and customer accessibility.
- Built a dynamic product management system enabling administrators to update inventory and product information without developer assistance.
- Implemented SEO-friendly page structures and responsive layouts to improve discoverability and user experience.
- Collaborated directly with business stakeholders to translate requirements into deployable web solutions.

Training And Seminars

• Leadership Education	2023
• Design Thinking Webinar	2023
• Google Developer Seminar	2024

Awards, Skills, and Certifications

- **Award (2023):** Best Team – FI-CHALLENGE Fipex 2024
- **Soft Skills:** Analytical Thinking, Team Collaboration, Time Management, Problem Solving, Communication
- **Frontend:** React.js, TypeScript, Vue.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- **Backend:** Laravel, FilamentPHP, REST API Development, API Integration
- **Database:** MySQL, Database Design, Database Management
- **Tools:** Git, GitHub, Visual Studio Code, Postman, phpMyAdmin
